

With over 400 years of combined reliable management experience, Eagle Services offers industrial cleaning, environmental cleaning, and industrial maintenance projects for customers in a wide variety of industries.

DRY CLEANING & VACUUM-CLEANING OF LARGE FACILITY HVAC

A ductwork system in a large facility was contaminated with accumulations of dust and mold.

These contaminants were suspected to be the cause of adverse health issues with occupants of the building. Eagle Services employed dry cleaning and vacuum methods to remove the materials from the duct work, then applied appropriate moldicides to mitigate mold contamination.

After project completion, building health was restored.
