

With over 400 years of combined reliable management experience, Eagle Services offers industrial cleaning, environmental cleaning, and industrial maintenance projects for customers in a wide variety of industries.

DRY ICE BLAST TO CLEAN STEAM TURBINES

A turbine in an ethanol plant needed mineral deposits removed from the blades. Located in a confined space where water would create problems for surrounding electrical components, Eagle Services utilized our dry ice blaster, 200 lbs of CO2 pellets and a 375 CFM air compressor to clean the turbine in 12 hours and put the plant back online and at max production.
